SERVICES OFFERED:

LinkedIn training for your company

LinkedIn is the world's largest professional network with more than 313 million members worldwide. It's a way to build credibility and demonstrate your expertise. If you have an incomplete profile, that shows lack of credibility and professionalism. With first impressions going a long way, it's important to get yours right the first time.

Customized social media training

Not every social media network is created equal, which means your type of business may not have success on all of them. With our help, we discover what your social media goals are and who your target market is. By doing this, you will know which platforms to focus your time on. Then we create your customized training.

Rent My Brain for 2 hours

Have you ever wanted to sit down with someone and pick their brain? Well, now you have the opportunity to sit down wherever you are comfortable learning and ask me about social media. This can include looking at your profiles and giving you advice to brainstorming on the type of content you are going to share.
